Smart India Hackathon-2018, the World's Biggest Innovation Challenge…………..

SIH-2018 is a Digital India initiative to bridge the digital divide in our country and further promote digital literacy in order to make development a comprehensive mass movement and put governance within everyone's reach in India.

Through this initiative, Govt. departments will directly engage with thousands of technical students and challenge them to build digital solutions to improve their efficiency, plug revenue leakages and corruption.

Smart India Hackathon 2018 is a non-stop digital product development competition, where problems are posed to technology students for innovative solutions.
